REGISTRY**

RECOGNIZE EXCELLENCE

About Us

American Registry is passionate about recognizing excellence. We start by identifying the nation's top performers, from your beloved family physician to your trusted legal counsel, to that top rated pizza parlor downtown. Large and small, local and national, whether a small business or the fastest growing in the Fortune 500, they have one thing in common: they've been rated and ranked the best. And once they've been recognized for their outstanding achievements, they're in The Registry - The American Registry of Business Excellence.

Are you in The Registry?
